INVITATION TO WHITE MEN TO PARTICIPATE IN NEXT DEMOCRATIC PRIMARIES

Address to the People.

Issued by the Democratic State Executive Committee—Chicago Platform Reaffirmed and Republican Administration in N. C. Condemned.

Raleigh Post.

The Yarbrough looked its old self to-day with such a number of stalwart Democrats congregated and bunched in the lobby, the scene of so many political gatherings.

The occasion of this gathering was the meeting of the Democratic State Executive Committee, which was had in rooms 40 and 41, on the second floor.

The meeting was called to order at 8 p. m. by Chairman Maul, and the attendance of whom was a large number of members in an off-year politically was noticeable.

There was a full and free discussion of political matters without reservation by members of the committee. At the conclusion of these remarks the following address was read to the people of North Carolina. The address was prepared and submitted to the committee by Mr. Francis D. Winston:

The representatives of the Democratic party in North Carolina congratulate the Democrats of her sister States, who with a firm stand for the principles embodied in the Chicago platform, have won splendid victories for the people.

In rejoicing at the success of the Democratic party in the late elections we remind the people that Democratic majorities were largest, and Republican minorities were smallest, in those States where that platform was the issue. It is a significant fact that Democracy was defeated in the States where local concerns were allowed to overshadow the principles of the party. Democracy is for all the people. The recent utterances of the people are plain and decided. They have expressed their faith in the Chicago platform, their belief in bimetallism, their disgust and disapproval of Republican creeds and practices, and, above all, their hatred of the tyrannous gold standard. They show that they will no longer submit to the robbery of trusts, the domination of bosses and the oppression of the money power. The condemnation of the hypocrisy and falsehood of the Republican party is crushing.

It is equally pronounced, whether we hear it, loud and free, in the wheat fields of Ohio and Iowa, or struggling for utterance in the wealth congested center of the "Greater New York," where the candidate for mayor received 80,000 plurality—a candidate whose only campaign utterance was "I am a Democrat, who was heart and soul for the Chicago platform, and the candidates who stood on it."

No less significant is the fact that the people of the State of New York have elected by 70,000 majority as Chief Justice of the Court of Appeals a statesman who sought support by announcing that he "had voted for Hon. Wm. J. Bryan last year."

And with this glorious news of Democratic success we rejoice that "shame international bimetallism" has been exposed. There is now no room for Republican dodging.

We reaffirm our belief in the principles of the Chicago and State platforms of the Democratic party, as adopted in their entirety, and we will still support those principles until they are written in our laws.

We would be untrue to the firm and loyal allegiance the Democrats of North Carolina bear to our greatest leader, Hon. William J. Bryan, if we failed to express our confidence in his honor and integrity, and in his devotion of lead and heart to the welfare of

our people.

WE regret exceedingly to chronicle a distressing accident that yesterday morning befel our young friend and countyman Mr. Hampton Kornegay, 20 years of age, the youngest son of Mr. C. F. R. Kornegay, of the Mt. Olive section, and brother to Messrs. Geo. C. and Grainger Kornegay of this city. He was attending his father's cotton gin, and, as all such accidents happen, he put his hand too far in and the saw caught it. Fortunately it was his left hand. At this writing it is thought that the member, though badly lacerated, and probably impaired for life, can be saved, so that amputation will not be necessary.

Serofula is the advertisement of fool blood. It may be entirely driven from the system by the faithful use of Hood's Sarsaparilla, which thoroughly purifies the blood.

PUSH AND PROGRESS.

Mr. R. A. Creech, the Jeweler: A Brief Sketch of his Business Career and Enterprise.

In all lines of business at this late day competition is such that success is not attained every time by those who are most industrious or persevering, but it is only a certainty for those who possess a practical knowledge of the preparation of their goods for market. Salesmen must be thoroughly familiar with the article they offer to a customer and must be able to converse intelligently on the different processes which that article has to pass through before it is ready for the inspection of the public. These statements are no doubt correct in business affairs generally, but their truth is more forcibly demonstrated in the jewelry business than any other. The jeweler has to know how to make a watch or a clock before he can explain satisfactorily their intricate complications of their delicate machinery and the different advantages which one possesses over another.

It was with proper consideration for the foregoing facts that Mr. R. A. Creech, our now prominent and popular jeweler, sought a reputable horological institute, where he took a complete course in study and practical work before he launched his jewelry business in this city. The benefits which he has derived from his practical knowledge of watch-making can be measured only by the large increase of his business.

From the time Mr. Creech made his debut in the jewelry business he has kept his name prominently before the trading people of this section of the State through the advertising columns of the Argus and this medium of making himself known, together with the satisfactory sales which he has always made, is constantly winning for him new customers. He personally superintends his repairing department and his knowledge of the business enables him to do this class of work in the most efficient manner.

While he brings efficiency to his business and by so doing has achieved success, he is also one of our enterprising and public spirited citizens and the community not only regard him as a business man, but hold him in high confidence as a citizen, which fact is evidenced by his election to the board of Aldermen.

The record of his business career is full of generous acts and public spirit. His latest enterprise—the erection of a handsome electric street clock in front of his place of business, with no doubt much with public favor. It is an ornament to the town and will serve well the purpose for which it was intended, viz: to furnish the correct time to all passers by and be an attractive advertisement for its progressive proprietor.

Perhaps the reason why so many rough diamonds are treated as they are in society is that the polite world thinks they require cutting.

Beware of the Knife.

Mr. Lincoln Nelson, of Marshfield, Mo., writes: "For six years I have been a sufferer from a scrofulous affection of the glands of my neck, and all efforts of physicians in Washington, D. C., Springfield, Ill., and St. Louis failed to reduce the enlargement. After six months' constant treatment here, my physician urged me to submit to a removal of the gland. At this critical moment a friend recommended S.S.S., and laying aside the deep-seated medicine, I began its use. Before I had used one bottle the enlargement began to disappear, and now it is entirely gone, though I am not through with my second bottle yet. Had I only used your S.S.S. long ago, I would have escaped years of misery and saved over \$100."

This experience is like that of all who suffer with deep-seated blood troubles. The doctors can do no good, and even their resorts to the knife prove either fruitless or fatal. S.S.S. is the only real blood remedy; it gets at the root of the disease and forces it out permanently.

S.S.S. (guaranteed purely vegetable) is a real blood remedy. It cures the most obstinate cases of Scrofula, Eczema, Cancer, Rheumatism, etc., which other so-called blood remedies fail to touch. S.S.S. gets at the root of the disease and forces it out permanently. Valuable books will be sent free to any address by the Swift Specific Co., Atlanta, Ga.

Cotton Mills North and South—Goldsboro Has One of the Finest—We Should Have a Dozen More.

"The South," says the Springfield (Mass.) Republican, "thinks it has us on the run in cotton manufacturing, and intends to keep us there."

That is just about the size of it if cotton spinning be alone considered. The South proposes to turn the entire crop into yarns or some other kind of merchantable goods; and the North can find employment in turning its yarns into various sorts of fine goods, thereby driving English and French products out of the country.

There is really no need of antagonism between the mills of the two sections. As a general proposition, the South will do the spinning, and the North should confine its energies to the task of weaving. If the North persists in doing some spinning, the South will be compelled to do some weaving.

If the two sections would cooperate it would not be long before the value of the crop to the country would be at least doubled. Instead of \$250,000,000, the crop can become worth to the South \$500,000,000. Such a change would enrich the entire country, and the resources of both sections would be needed in bringing it about.

Every county in the South should do its part. If every county had its spinning mill and every farmer grew his own supplies, no more complaint would be made over 5-cent cotton. A farmer who produces his own bread and meat and animal food, need not hesitate to put in all the cotton he can handle. Whatever cotton he grows should be to him clear cash as nearly as may be. The old time call for restricted production should not take the form of a better opportunity to other cotton growing countries, but a form that admits of the growing of home supplies and the spinning of the crop very close to the fields where it grew.

The North as well as the South—Massachusetts as well as North Carolina—is interested in the maintenance of the crop against Brazil, Egypt, Turkey, India and China. The South should grow and spin all it can, provided it at the same time grows its own supplies. The Springfield Republican should advise its readers to buy more looms, and send its spindles to the cotton fields, where the crop can be economically prepared for use in these looms.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; also cases of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Sent for circulars free. J. F. CROSBY & CO., Toledo, O.

Capt. Kitchen Writes a Ringing Letter to the Charlotte Observer: It is the Solution of the Situation—Its Wise Precepts Should be Heeded.

"The ARGUS has always had an abiding faith in the patriotism of Capt. W. H. Kitchen, and though he wandered off, like many other good men, we still look'd upon him as a 'good man gone astray' and not a bad man made manifest. And so we were not surprised to read in yesterday's Charlotte Observer a ringing letter, in extensive, from his ready pen, from which we copy the following concluding paragraphs, that contain the gist of the epistle and the wisdom of a patriot who knows from experience the pitfalls of political wavering and the burden and contumely of Republican power in North Carolina. Here is how he concludes his letter, and we welcome his return to the fold and receive him at the council table:

"No one wants our former brethren to 'tag along at the tail end of the procession.' I want all the honest, patriotic gold advocates and Populists and all others who believe in the bedrock principles of the party, and who favor the driving of the present gang out of power in the State, into outer darkness, where there will be waiting and gnashing of teeth, and who will abide the decision of the conventions of the party, to come boldly into the conventions, and stand in said conventions as peers and equals of all other Democrats. Of course I do not mean that I would favor inviting sneaks, spies, bunners and traitors into a Democratic organization or convention, as plotters, schemers, intriguers and stirrers-up of strife. But I do not consider the honest gold standard man or the honest, non-office-seeking Populist as belonging to these classes, but I look upon them as I look upon myself and the members of the Democratic party, as honest, upright, patriotic citizens, desiring and striving to do the best they can to aid in bringing light out of darkness, quiet out of chaos, happiness out of misery, prosperity out of adversity, and above all things to save our civilization from the hands of such men as Butler, Pritchard, Russell and their hordes of heathens and barbarians.

"As I have said in substance, I think nothing less of a good citizen, honest and open in his convictions, because he holds opinions different from mine on any question. And it is radically wrong, morally wrong and politically wrong to heap denunciations upon them. The villain, the scoundrel, the plotter, the intriguer, the unprincipled fellow of the baser sort, devoid of principle, honor, virtue, true manhood, and who deals in falsehoods, slanders and stratagems and treasons is the fellow to denounce.

"If I was chairman of the Democratic party, I would beg and beseech all Democratic papers and speakers, for decency's sake, and especially for the sake of harmony and unity in the party, to hoist on high the flag of force and cease firing on their former friends and to turn their guns upon the common enemy.

Ayer's Cathartic Pills

was designed to supply a model purgative to people who had so long injured themselves with gripping medicines. Being carefully prepared and their ingredients adjusted to the exact necessities of the bowels and liver, their popularity was instantaneous. That this popularity has been maintained is well marked in the medal awarded these pills at the World's Fair 1893.

THE RECORD.

Asheville Citizen.

President Cleveland's first administration accumulated a surplus.

President Harrison's administration dissipated that surplus so that his Secretary, Foster, was preparing to sell bonds for gold when he went out of office.

President Cleveland's second administration issued the bonds and replenished the public treasury.

President McKinley's administration witnesses a constantly increasing deficit.

Hence the ordinary expenses of the government are, at present, paid, in part, out of the proceeds of the very bond sales which the Republicans have reviled President Cleveland for making.

The Methodist Conference.

Raleigh, N. C., December 3.—To-day the important work of the North Carolina Methodist conference was the election of delegates to the general conference. The following were chosen: Clerical—Drs. John C. Kilgo, E. A. Yates, T. N. Ivey and F. D. Swindell. Lay—Jos. G. Brown, Benjamin N. Duke, Dr. D. B. Zollicoffer and L. L. Smith.

Rev. L. O. Wyche and Rev. James H. Seabold were re-admitted.

Rev. Dr. Law, of the American Bible Society, addressed the conference.

The following ministers were received into full connection; Jesse L. Cunningham, David P. Parker, Robert L. Harvey, Yancey E. Wright, Lillian A. Humble, Ernest W. Fox and W. D. Sasser.

In the afternoon, the examination of character was continued, and at night an eloquent address was delivered by Rev. John C. Kilgo, president of Trinity college, on the subject, "Christian Education." He spoke for an hour and a half and had the vast audience in tears.

WHERE DO THEY STAND?

The Atlanta Constitution is exactly right when it says that the genuine Democrats of the Chicago platform are still standing on the Chicago platform. If they are not standing on that platform where do they stand? Do they stand with the gold Republicans on the St. Louis platform, or with the gold Democrats in the midst of a quagmire, or with the Populists or the social Democrats?

Of course, the authoritative declarations of the national democratic party in its last convention control all loyal Democrats until the party in its regular councils may decide upon a change of policy. The Chicago platform is in good enough for any Democrat. It embodies the living issues.

The kickers who stray off and get on little platforms of their own are not organized Democrats. They are camp followers between both the great parties, and liable to join either, for a sufficient provocation or inducement.

A Household Remedy.

And it never fails to cure Rheumatism, Catarrh, Sciatic Rheumatism, all diseases arising from impure blood, is Eucalypti Blood Balm (B. B. B.) The Geier off For Hayti.

Berlin, December 3.—It is announced that only the small German cruiser Geier, with a crew of 265 men, will be ordered to Port au Prince Hayti, in order to support the demands of Germany for an indemnity to Herr Emil Lueders for his alleged false imprisonment by the Haytian authorities. The Geier will only "demonstrate" if the pending negotiations with the Haytian Minister at Berlin should fail.

The Hamburger Nachrichten, commenting upon the alleged intention of the United States to interfere in Hayti, says: "We deem it a political necessity to oppose this American arrogance empirically, and certainly when directed against Germany. Of course nobody in Germany dreams of annexing Hayti, but we hope to induce the government to intergally demand the necessary satisfaction in the shape of damages and to enforce this by proper means."
